WORKFORCE HOUSING · SAUDI ARABIA

All your crew housing. One hub.

Licensed beds, transport, meals and building management,
arranged from one request.

Company overview · 2026

BACKGROUND

Saudi Arabia is building. Its crews need licensed beds.

3.4M

construction workers in the Kingdom,
92% of them expatriates

~1M

workers covered by a group-housing
licence so far

20+

workers, and an employer must house
them in licensed group housing

Sources: GASTAT Labour Force Survey Q4 2025; MOMAH (via Al Riyadh); MOMAH National Program, Sep 2025

THE PROBLEM

Housing a crew is still done by hand

Scattered supply

Converted buildings on Haraj and Aqar. One landlord, one call at a time.

Scattered rules

Each track sets its own standard:

Balady

MODON

RCJY

Aramco

The risk is yours

Licensed beds must match your Qiwa headcount. A housing allowance doesn't count.

Capacity is calculated, not counted

4 m² per person

Max 10 per room

1 bathroom set per 8

Renewed yearly

WHY NOW

Licensing is now enforced, with a deadline

Sep 2025

Licence required for every firm with 20+ workers

2025–26

Balady linked to Qiwa. Enforcement moves from large to small firms

Dec 2025

Paying a housing allowance no longer exempts

Sep 2026

Updated rules give existing housing one year to correct

~Q3 2027

Deadline: every crew in licensed beds

Every employer with 20+ workers is now a buyer

Existing buildings must be re-licensed, and many lose beds

Compliant supply is limited by strict siting rules

WHAT'S AT STAKE

The fine is small. The freeze isn't.

FINES

SAR
600–5,000

 Qiwa services frozen

 No worker transfers

 No new visas

 Commercial registration
suspended

THE SOLUTION

Tell us the need. We house the crew.

- 1 Request**
City, headcount, start date. By form, phone or WhatsApp.
- 2 Match**
Licensed beds sized to your Qiwa headcount.
- 3 Move in**
Transport, meals and building management included.

Every bed licensed on Balady or the MODON / RCJY track

THE HUB MODEL

One request in. Many sources of licensed beds behind it.

Better than the conventional routes

	Searching listings	Traditional operator	SakanHub
Licensed and matched to Qiwa	Your job to check	Their own sites only	✓ Every bed
Choice of buildings	Ad by ad	One portfolio	✓ Many sources
Transport, meals, upkeep	Arrange each one	Often bundled	✓ One contract
Licence renewals	On you	Varies	✓ Tracked for you
Getting started	Calls and visits	Their availability	✓ One request

SERVICES

Everything a crew needs, in one contract

Housing

Licensed, furnished beds with a full-time Saudi supervisor

Transport

Crew shuttles between housing and site

Meals

Catering service or a central kitchen

Management

Maintenance, periodic cleaning and licence renewals

FOR BUILDING OWNERS

A full building, without the headache

- 01 We assess licensed capacity
- 02 Upgrade it to pass inspection
- 03 Get the licence
- 04 Fill it with company tenants
- 05 Operate it: upkeep and maintenance

BUSINESS MODEL

Two ways we earn, both asset-light

Option 1 Lease and operate

We lease the building, license it and sell beds per worker.

We lease at

SAR 200–400

We sell at

SAR 400–450

Per bed, per month · market range

- ✓ **Bed spread** on every licensed bed
- ✓ **Service fees:** transport and meals

Option 2 Revenue share

The owner keeps the building. We license, fill and operate it.

Owner keeps

80%

+

SakanHub earns

20%

Split of bed revenue · illustrative, set per deal

- ✓ **No lease, no capex:** grows with owners
- ✓ **Service fees:** transport and meals

Price ranges are market estimates from our research (incl. a competitor's published buyer guide), not SakanHub pricing.
